TN TILT™

The **Tennessee Tilt** Shipping container trailer is designed as a lightweight, efficient, Shipping Container Trailer. Weighing in at under 9,000lbs with a GVWR of 21,000lbs. This lightweight trailer is designed to carry 1 - 40' Shipping Container, 1 - 20' Shipping Container, or 2 - 20' Shipping Containers. The unique 2 20' Shipping Container design allows you to be more efficient when delivering containers to their destination. You can drop on 20' Shipping Container to Customer 1 and then deliver Shipping Container 2 to client 2 without having to go back to your yard for another Shipping Container.

The **Tennessee Tilt** is a perfectly balanced Tri-Axle design that keeps tongue weight within the requirements of most truck manufacturers recommendations, while keeping your load secure and balanced behind you. It boasts a total of 8 retractable twist locks eliminating the need to strap down your load, getting you in and out of Depots and Ports in an efficient manner cutting your load an unload times down by 2/3, while eliminating the worry of worn straps and fines.
